SUMMARY

Owner-operator, applied AI engineer, and former institutional investment analyst. Eight years as owner and CEO of Bushwick Daily, a New York City news publication reaching 4M monthly impressions across web and social; acquired the publication in 2018 on a self-built DCF valuation and operate it with full P&L ownership, 100+ closed commercial deals, and government partnerships across three mayoral administrations. Architected and operates the Provenance-Grounded Research Agent, a production multi-agent AI system on the Claude Agent SDK, documented in a published technical white paper. Previously covered a \$200M investment-grade book within Erie Insurance's \$13B portfolio and led due diligence on \$100M+ in private markets fund commitments. Passed CFA Level I in the top quartile of all sections.

PROFESSIONAL EXPERIENCE

BUSHWICK DAILY / BROOKLYN NEW MEDIA, LLC

Owner, Publisher & CEO

New York, NY

February 2018 – Present

Applied AI & Production LLM Systems

- **Provenance-Grounded Research Agent:** Architected and shipped a production multi-agent RAG system with citation-traceable outputs, deployed across news research, story extraction, email triage, and workflow automation; multi-model orchestration on the Claude Agent SDK routes Claude (generation), Haiku (classification), Gemini Flash (routing), and GPT-4 (specialized extraction); PostgreSQL warehouse with pgvector and HNSW indexing combines vector similarity with full-text search via Reciprocal Rank Fusion.
- **Data & Memory Architecture:** Built custom connectors across heterogeneous sources (news APIs, email, web scrapes via Scrapy and Playwright) with ETL transforms, embedding generation, and continuous sync; engineered an adaptive memory system with a 4-level scope hierarchy, deterministic quality gates, and an effectiveness tracker that learns from human feedback, informed by Mem0 and MemGPT research.
- **Production Discipline & Adoption:** Runs daily on Celery with retry logic and graceful degradation, all agent-initiated actions gated behind human-in-the-loop approval; model-agnostic design swaps models and prompts as the frontier shifts; led rollout and adoption across editorial and business operations, iterating on accuracy and cost tradeoffs from production usage.

Commercial & Operating Leadership

- **Owner-Operator Scale:** Acquired Bushwick Daily in 2018 on a self-built DCF valuation, then a second brand in 2019; operate as sole executive across product, engineering, sales, and operations with full P&L ownership over advertising, reader subscriptions, consumer product lines, and institutional contracts.
- **Commercial Motion:** Owned the full sales cycle on 100+ advertiser and partner deals spanning NYC city agencies (Department of Education, Office of the Mayor, MOME), major institutions and consumer brands (NYU Langone, Citi Bike, Airbnb), Manhattan advertising agencies, and local businesses; land-and-expand motion delivered 85% client retention and 30%+ average expansion on renewals.
- **Team & Events:** Managed a 20+ person cross-functional organization; recruited 30+ journalists and 4 editors, with a CUNY Journalism School internship pipeline producing 15 full-time hires; produced large sponsored events, including 600-person productions.

Government, Policy & Communications

- **Government Portfolio:** Built and maintain the publication's government relationships across three mayoral administrations, spanning City Hall, the Mayor's Office of Media and Entertainment (MOME), the Department of Education, the Comptroller's Office, City Council members, and state assembly representatives; secured classification by MOME as a preferred city partner and official city news source.
- **Legislative Win & Publication of Record:** Partnered with a coalition of independent publishers whose campaign won a \$90M refundable payroll tax credit for local news employment in the FY2025 New York State budget, the first

program of its kind in the nation; published 7,000+ original articles as the coverage area's publication of record, with reporting cited by The New York Times, New York Magazine, Rolling Stone, and Gothamist.

MAHTAB KHAN FOR NEW YORK STATE ASSEMBLY, DISTRICT 24

Queens, NY

Communications Director (volunteer)

2026

- **Campaign Communications:** Directed communications for a contested 2026 State Assembly primary targeted by opposition super PACs: candidate messaging, press relations, and rapid-response communications in a volunteer consulting role.

ERIE INSURANCE / ERIE INDEMNITY COMPANY

Erie, PA

Investment Analyst

January 2015 – March 2017

- **Credit Coverage:** Covered the firm's \$200M investment-grade bond portfolio across oil-and-gas and metals-and-mining sectors within the \$13B book; performed relative value analysis for primary issuance pricing and allocation, built credit underwriting models with sensitivity analysis across EBITDA multiples, leverage ratios, and covenant triggers, and issued buy/sell recommendations on 20+ individual credits.
- **Fund Due Diligence:** Led due diligence on \$100M+ in middle-market private equity, venture capital, mezzanine, and real estate fund commitments, including on-site GP evaluations and return-scenario modeling against Burgiss quartiles; advised senior portfolio managers on manager selection, risk assessment, and allocation sizing.
- **Committee Work:** Spearheaded a bottom-up reallocation initiative within the firm's Oil Field Services positions, presenting position-level analysis to the senior investment committee; maintained the firm's Emerging Market Debt relationship with JP Morgan and authored the monthly inflation overview for the Asset Allocation Committee.

BANK OF AMERICA MERRILL LYNCH / BNY MELLON

Erie & Pittsburgh, PA

Management Intern / Performance Analytics

2013 – 2014

- Analyst rotations across wealth-management compliance and institutional performance analytics; built SQL-based reporting systems for client document review.

SKILLS

- **Applied AI / LLMs:** Claude Agent SDK; multi-model LLM orchestration (Anthropic, OpenAI, Google); LangGraph; production multi-agent RAG; prompt engineering and evals; agent memory architectures; human-in-the-loop gating.
- **Engineering & Data:** Python, SQL, JavaScript; data structures and algorithms; PostgreSQL with pgvector and HNSW; Reciprocal Rank Fusion; FastAPI, React; Celery, Redis; Docker; AWS; Scrapy, Playwright; Claude Code; Git.
- **Finance:** Credit underwriting and sensitivity analysis; DCF and relative value; LP-side fund due diligence; Burgiss benchmarking; macro and rates research; CFA Level I (passed).
- **Commercial & Communications:** Full-cycle enterprise and government sales; procurement and contract negotiation; land-and-expand account management; policy briefings and government relations; campaign communications; media relations and public spokespersonship.
